

OVER \$234,000 SAVED WITH TIMKEN SOLUTION FOR OVEN ROLLERS

CHALLENGE ▼

Weekly re-greasing requirements and frequent bearing replacement caused headaches for one major snack manufacturer in its critical oven roller applications. With replacement required every three months, maintenance and operational expenses were adding up, leading the snack producer to seek out a new solution.

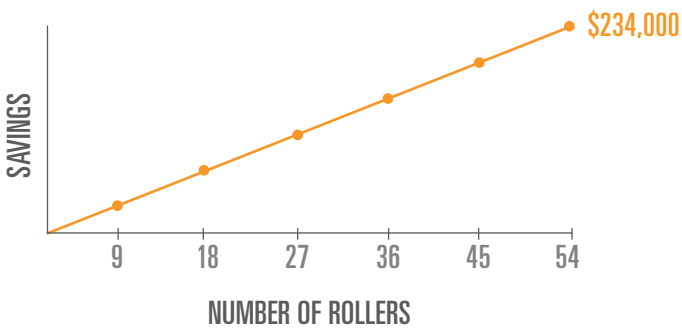

TIMKEN SOLUTION ▼

Our service engineers offered an ideal replacement for the oven roller bearings: Poly-Round® Plus Bearing. Our bearings required no ongoing maintenance and effectively eliminated shaft damage, the primary cause of failure in the previous bearings, extending bearing life from three months to 15.

RESULTS THAT MATTER ▼

- Oven roller bearing life extended from three months to 15
- Eliminated regular maintenance requirements
- Drastically reduced downtime

TOTAL SAVINGS OVER 24 MONTHS
