

TIMKEN

TIMKEN® AUTOMOTIVE WHEEL BEARING GREASE FOR DISC AND DRUM APPLICATIONS

Timken® Wheel Bearing Grease is a premium, high-temperature, red grease that can handle the rigors of both disc and drum bearing applications. This multi-application grease provides the needed lubrication to meet the demands of routine trips, cross-country hauls and everything in between.

We developed our wheel bearing grease by leveraging our knowledge of anti-friction bearings, tribology (the study of friction, lubrication and interacting surfaces) and wheel-end systems.

Our grease contains corrosion inhibitors, plus anti-wear and water-resistant additives – offering excellent protection in even in the most challenging conditions. It also features a lithium complex thickener that resists softening and provides the mechanical stability required for passenger, commercial and medium-duty vehicles.

FEATURES AND BENEFITS:

- For disc and drum applications
- NLGI GC-LB certified
- NLGI No. 2 lithium complex
- Anti-wear additives
- Corrosion inhibitors
- Water-resistant additives
- Wide operating temperature range
-40°F to 300°F (-40°C to 149°C)
- Reusable, high-impact container
- Screw-top lid
- 55 lbs. rating offers superior load-carrying capability

PART #	DESCRIPTION	CASE QUANTITY
GR224TUB	425-gram tub	6
GR224C	14-ounce cartridge	10

Available in other sizes. Ask your Timken representative for details.

⚠ WARNING Failure to observe the following warnings could create a risk of death or serious injury.

Proper maintenance and handling procedures are critical. Always follow installation instructions and maintain proper lubrication. Never spin a bearing with compressed air. The rollers may be forcefully expelled.

TIMKEN

The Timken team applies their know-how to improve the reliability and performance of machinery in diverse markets worldwide. The company designs, makes and markets bearings, gear drives, automated lubrication systems, belts, brakes, clutches, chain, couplings, linear motion products and related industrial motion rebuild and repair services.

Stronger. By Design.
